

ElectronicNetwork®
SYNERGIE IN KOMPETENZ

***EN ElectronicNetwork Eberbach GmbH
stays certified according to IRIS***

Eberbach, 06th May 2010

Mid of April the ElectronicNetwork site EN Eberbach faced the yearly audit according to the rail standard IRIS and has once more accomplished it successfully.

IRIS stands for International Railway Industry Standard and is a globally recognized standard unique to the railway sector for the evaluation of management systems.

The EN ElectronicNetwork Eberbach GmbH has improved its management system further and could therefore obtain a better result as in the primary certification in the last year 2009.

The audit report was sent to the UNIFE, the European rail industry in Brussels.
